# RECRUITMENT, BETTER.

At Hewitt Britton, we are dedicated to providing you with honest, highly informed professional services recruitment. Operating in the National and European markets, our skilled consultants strive for a deeper understanding of their sectors to deliver the highest service to both clients and candidates. Getting to the core of your company's values to not only match candidates on a skill level but to enhance your company culture and help you build successful teams. Frequently exceeding expectations, our specialised team works diligently and tirelessly to expedite the recruitment process for you.

## WHY HB?

### Hewitt Britton is different.

**1** Firstly, our small team allows us to interact with clients in a personal way. Unlike the big firms who have to juggle with a multitude of clients, we can offer a select number of partners our full commitment to their requirements. In other words, you will not just be 'added to the list' but put front and centre.

**2** Secondly, whilst we recognise the importance of KPIs, this is not the basis from which we work. Our approach focuses on quality not quantity, only submitting a handful of highly suitable candidates. Whilst other companies are forced to hit certain arbitrary numbers and send CVs with a scatter-gun approach, we save you time by screening and hand-picking the best.

**3** Finally, it is our open and honest way of working which distinguishes HB. With us, the recruitment process is transparent, we are available whenever you need us and we will tell you how it is, not what we think you want to hear.
